

SILENT SHADE SECTIONS

| PRODUCT CODE | DESCRIPTION | LENGTH | FINISH |
|---|---|--------|---|
|  | SSF Force Rail <i>10 Lengths per carton</i> | 5.8 | 10UM Clear Pearl White Birch White Satin Black |

How it works..... The Force base rail silences a banging blind with its integrated impact absorbing barriers

Add as many barriers as required, one for each mullion. They simply click onto the rail and can be slid to any position. The base bar comes in Clear Anodised, Black, White and Birch White with matching barriers and end caps. The Force base uses a standard 15mm spline, all available from Scottfree Australia.
