

## WARDROBES

### ABRA's Snap Lock™

ABRA's Snap Lock™ Wardrobes are elegant, practical and packed with features that make them a lifelong, trouble free system.

The bumper strip runs the entire length of the door stiles absorbing shock and preventing wall scuffing. This can be colour coordinated, enabling it to blend in discreetly, or make a statement by having a contrasting colour.

A clever V design groove sill-track glides silently open and shut and more importantly, prevents dust from, contaminating wardrobe contents.

The simple turn of a screw on top of the rollers allows you to accurately align doors with the walls every time.

The patented Snap Lock™ corner stake, in combination with the interlocking roller, makes this system one of the strongest frame assemblies you can buy. No screws or rivets to work loose.

Home Improvement System

**BUILD**

**STANDARD 92MM  
SUITE**

A popular feature on the Standard Suite is a streamline Sure-grip handle on the stiles.

The head-tracks have been designed to be reversible should they ever be inadvertently damaged

**MICRO 72MM  
SUITE**

The Micro Suite is the perfect sliding door replacement for cumbersome swinging doors.

The unique design of the side styles easily supports doors up to 3.1 metres tall.

**“Elegance, robust design and top quality materials make Snap Lock™ your number one”**
